Forensic Accounting Programs

The costs of corporate fraud and white-collar crime are estimated to exceed $1 trillion annually. The School of Accountancy administers an interdisciplinary minor in fraud examination and offers a forensic accounting concentration in its graduate accounting program. The fraud examination minor prepares students to become fraud investigators. Please refer to the Interdisciplinary Minor section of the university catalog for a complete listing of the courses included in the minor. Integrating accounting, law, auditing, and investigative skills, the graduate forensic accounting concentration prepares students to become forensic accountants. Forensic accountants, often referred to as the bloodhounds of accounting, are highly sought after by firms and organizations wishing to beef up their investigations and forensics practices.
