School of Accountancy

Accounting

Accounting is the language of business. The accounting profession offers almost infinite opportunities for men and women to build exciting and rewarding careers. Technology is driving changes in the way business is done, which means more new opportunities for accounting professionals who are prepared to support organizations of all sizes and structures to harness the enormous potential of transactional information and the technologies used to capture and report that information. Accountants and auditors are the most trusted financial information professionals. The accounting program at Georgia Southern University, which is separately accredited by the AACSB, the international business and accounting accrediting organization, offers students the following curriculum options:

4-Year Track

The four-year program prepares students for a wide range of professional careers in industry, finance, government, and non-profit organizations. The four-year program includes accounting course work which prepares students for work in areas such as fraud examination, financial management, financial reporting and analysis, internal auditing, and management consulting. Upon completion of the 4-year track, students receive the Bachelor of Business Administration degree. Students may want to also minor in another area of business to enhance their business skill sets. MIS is a very valuable added area of emphasis.

5-Year Track

The five-year professional accounting program prepares students for careers in public accounting as certified public accountants (CPA). In order to become certified in the State of Georgia, candidates must have 150 credit hours of college education. After completion of their BBA, students apply for and are competitively admitted to the Master program. In the fifth year, students complete 30 additional credit hours of accounting and non-accounting Masters’ level education. This curriculum is designed to prepare them for work as objective advisors for their clients, providing such services as auditing and assurance services, sustainability and environmental accounting, forensic accounting, information technology services, international accounting, consulting services, government and not-for-profit financial services, personal financial planning, and tax advisory services. Please refer to the graduate portion of the catalog for a detailed description of the Master of Accounting (http://catalog.georgiasouthern.edu/archive/2015-2016/graduate/business-administration/graduate-programs/accounting-macc) program.
