The Bachelor of Interdisciplinary Studies (B.I.S.) degree with a major in Interdisciplinary Studies provides opportunities for students who are interested in combining a liberal arts background with three areas of specialization. The Interdisciplinary Studies major - offered on-campus or on-line - offers a solid core curriculum program along with the freedom to choose from a variety of concentrations.

The Interdisciplinary Studies program prepares students for successful life-long learning by engaging them in a broadly applicable interdisciplinary degree program that reflects the growing complexity and connectivity of the modern world, and is guided by integrity, academic excellence, and global citizenship.

Students completing the Interdisciplinary Studies major (B.I.S. degree) will:

1. Communicate effectively with diverse audiences, for a variety of purposes, using written English, oral communication, or technical competencies.
2. Critically analyze ideas from multiple sources in order to draw well-supported conclusions and solve problems.
3. Apply essential ideas, principles, theories, and methods relevant to their concentration and minor disciplines.
4. Apply knowledge and skills across interdisciplinary boundaries.
5. Evaluate and integrate new information into existing frameworks of knowledge.
6. Integrate learning about diverse cultures, groups, and ideas across interdisciplinary boundaries.
