

# Department of Civil Engineering and Construction

---

The Master of Science in Civil Engineering degree program (MSCE) at Georgia Southern prepares students with the advanced technical knowledge and skills needed to propel your career in the vital area of infrastructure.

The program serves both full-time students preparing for careers as civil engineering professionals, and currently employed professionals seeking an advanced education to augment their existing skills and backgrounds. The MSCE degree program consists of technical coursework and a thesis or non-thesis track in five main areas:

- Construction Engineering
- Environmental/Water Resources Engineering
- Transportation-Pavement/Geotechnical Engineering
- Structural Engineering
- Surveying-Geomatics

Prospective students will usually have earned a previous degree in civil engineering, construction engineering, construction (management), or environmental engineering.

Graduate students are advised by their graduate program director:

Dr. Francisco Cubas-Suazo  
912-478-2822  
fcubassuazo@georgiasouthern.edu

The Paulson College of Engineering & Computing also has a graduate advisor to assist all its graduate students:

Erica Colbert  
912-478-3007  
ercolbert@georgiasouthern.edu

## Programs

### Master's

- Civil Engineering M.S.C.E. (Non-Thesis) (<http://catalog.georgiasouthern.edu/graduate/allen-paulson-engineering-computing/civil-engineering-construction-management/civil-engineering-msce-non-thesis/>)
- Civil Engineering M.S.C.E. (Thesis) (<http://catalog.georgiasouthern.edu/graduate/allen-paulson-engineering-computing/civil-engineering-construction-management/civil-engineering-msce-thesis/>)
