The Allen E. Paulson College of Engineering and Computing (CoEC) at Georgia Southern University offers both undergraduate and graduate degree programs. At the undergraduate level, the CoEC offers ten Bachelor of Science degree programs: Civil Engineering; Computer Engineering; Computer Science; Construction; Construction Engineering; Electrical Engineering; Information Technology and Bachelor of Information Technology (BIT) Online; Manufacturing Engineering; and Mechanical Engineering. CS and IT are offered on both the Statesboro and Armstrong campuses.

The first two years of the Mechanical Engineering program is offered on the Armstrong campus and students must transition to the Statesboro campus to complete the MechE degree. The Regents' Engineering Pathway (REP) Program, available on both the Armstrong and Statesboro campuses, is offered as an option for students to complete the first two years of their engineering curriculum at designated Georgia colleges and then transfer to Georgia Southern (or another engineering school in Georgia) based on the availability of a particular major, to complete their BS degree in engineering.

At the graduate level, the college offers Master of Science degree programs in Applied Engineering (with concentrations in Advanced Manufacturing Engineering and in Engineering Management), Civil Engineering, Computer Science, Electrical Engineering, Information Technology, and Mechanical Engineering. The College also offers two graduate certificates in Engineering & Manufacturing Management, and Occupational Safety & Environmental Compliance on the Statesboro campus. Undergraduate students may now choose an Accelerated Bachelors to Masters (ABM) pathway for any of our MS degree programs -- each program has its own timeline and requirements for selecting the ABM (or "4+1") option.

Vision
The College of Engineering and Computing will be a nationally recognized leader in engineering, computer science, and information technology in the areas of student-centric and application-based teaching, research, and service.

Mission
The College of Engineering and Computing will maintain a dynamic and evolutionary environment of excellence in teaching, research, and service in which students, faculty and staff can achieve their professional goals. In these endeavors, the College will foster student-centric professional learning experiences utilizing advanced technologies that are applied with state-of-the-art equipment, inspire innovation and invention, encourage sustainability, and technically and economically enrich our communities and societies.

College Structure
- Department of Civil Engineering and Construction Management (http://catalog.georgiasouthern.edu/undergraduate/allen-paulson-engineering-computing/civil-engineering-construction-management/civil-engineering-bsce)
- Department of Manufacturing Engineering (http://catalog.georgiasouthern.edu/undergraduate/allen-paulson-engineering-computing/manufacturing-engineering)
- Department of Electrical and Computer Engineering (http://catalog.georgiasouthern.edu/undergraduate/allen-paulson-engineering-computing/electrical-computer-engineering)
- Department of Information Technology and Bachelor of Information Technology (BIT) Online (http://catalog.georgiasouthern.edu/undergraduate/allen-paulson-engineering-computing/information-technology)
- Department of Mechanical Engineering (http://catalog.georgiasouthern.edu/undergraduate/allen-paulson-engineering-computing/mechanical-engineering)
- REPP - Regents' Engineering Pathway Program (http://catalog.georgiasouthern.edu/undergraduate/allen-paulson-engineering-computing/regents-engineering-pathway-program)

Experiential Learning Opportunities
Internships
Internship opportunities are available for all undergraduate programs in the Allen E. Paulson College of Engineering and Computing and are required for students majoring in Construction and in Information Technology. Internships are supervised experiential learning programs designed to allow students an opportunity to receive practical experience in their chosen field of study. Students should contact the Associate Dean for Students & Curriculum for further information.

Co-operative Education
Co-ops allow students the opportunity to gain work experience related to their academic major while earning a salary. To participate in a cooperative education opportunity, a student must have completed at least 30 semester hours of instruction, have a grade point average of at least 2.5, and be willing to participate in a minimum of two alternating co-op work semesters. Work responsibilities and salaries are determined by the employer. Students should contact the Associate Dean for Students & Curriculum for further information.

Undergraduate Research
Involving undergraduate students in applied, hands-on research activities and projects is a primary focus of the College. College administration and faculty work diligently to provide students with abundant opportunities to engage in research under faculty supervision. Examples of each department's current areas of research are included in the department brochures and web pages. The Dean's Office and corporate sponsors fund student-led research projects which are showcased in the annual Student Research Symposium.

Programs
Majors
- Civil Engineering B.S.C.E. (http://catalog.georgiasouthern.edu/undergraduate/allen-paulson-engineering-computing/civil-engineering-construction-management/civil-engineering-bsce)
- Computer Science B.S. (http://catalog.georgiasouthern.edu/undergraduate/allen-paulson-engineering-computing/computer-science/computer-science-bs)
Allen E. Paulson College of Engineering Computing

Advising

Academic advisement for majors in the College is conducted through the College’s Student Services Center.

Locations:

• (Statesboro campus) IT Building, Room 1208, Telephone: (912) 478-4877

• (Armstrong campus) Student Success Center 109, Telephone: (912) 344-3271

Contacts

Dean: Mohammad Davoud
IT Building Room 3400
P.O. Box 7995
(912) 478-7412
E-mail address: mdavoud@georgiasouthern.edu

Associate Dean: Andres Carrano
