## Manufacturing Engineering B.S.Mfg.E.

### Degree Requirements: 130 Credit Hours

*See Core Curriculum for required courses in Area A1 through Area E.*

### Materials Process

- MENG 5138 Composite Materials: Manufacturing, Analysis, and Design
- MFGE 5531 Advanced CNC Machining and Programming
- MFGE 5532 Introduction to MEMS
- MFGE 5534 Packaging
- MFGE 5535 NanoManufacturing
- MFGE 5536 Characterization of Advanced Manufacturing Materials
- MFGE 5537 Design for Environment and Green Manufacturing

### SAP

- CISM 3333 ERP Systems Using SAP
- CISM 4237 Business Intelligence
- CISM 4333 Human Resource Information Systems
- CISM 4335 Advanced Business Applications Programming (ABAP) for the SAP/ERP System
- CISM 4336 ERP and Enterprise Performance
- CISM 4434 Enterprise System Configuration
- CISM 4435 ERP Web Portal Customization and Collaboration using SAP NetWeaver

### Occupational Health and Safety

- TSEC 5331 Occupational Safety
- TSEC 5333 Industrial Hygiene and Ergonomics
- TSEC 5334 Hazardous Waste Management
- TSEC 5335 Systems Safety in Manufacturing
- TSEC 5336 Environmental Law

### General Manufacturing Engineering

Choose any combination of three courses (9 credits) from any combination of specialization areas above with the advanced approval of your advisor and the department chair.

### Free Elective

Select 3 credit hours of Free Electives

---

1. MATH 2242 Calculus II and PHYS 2211 are recommended in Area D.
2. While Calculus I (MATH 1441) is 4 credit hours, only 3 credit hours will count toward fulfilling Area A2. The remaining credit hour will be applied toward Specific Requirements.
3. College credits can be given for high school pre-engineering program Project Lead The Way’s (PLTW’s) Introduction to Engineering Design (IED) course as a possible substitution for Engineering Graphics (ENGR 1133), if the following three conditions are satisfied:
   - student scores 80% or above overall in the course and
   - an approval of the PLTW affiliate director faculty member at Georgia Southern.
4. The SAP Specialization requires additional prerequisite courses. Consult with your academic advisor.
Manufacturing Engineering Co-Op (MFGE 4091) (1 credit) may also be used to satisfy elective credit(s) and taken for repeat credit with an established co-op rotation of the same employer with advanced approval of the department chair.

Other Program Requirements
At least 33 semester hours of approved Engineering courses must be taken at Georgia Southern.

Advisement
Allen E. Paulson College of Engineering and Computing
