Free Elective

Select 3 credit hours of Free Electives 3

Total Credit Hours 130

1 MATH 2242 Calculus II and PHYS 2211 Principles of Physics I are recommended in Area D.
2 While Calculus I (MATH 1441) is 4 credit hours, only 3 credit hours will count toward fulfilling Area A2. The remaining credit hour will be applied toward Specific Requirements.
3 College credits can be given for high school pre-engineering program Project Lead The Way’s (PLTW’s) Introduction to Engineering Design (IED) course as a possible substitution for Engineering Graphics (ENGR 1133), if the following three conditions are satisfied:
   - student scores 80% or above overall in the course and
   - an approval of the PLTW affiliate director faculty member at Georgia Southern.
   - student scores 70% or above on a Georgia Southern administered competency exam.

Other Program Requirements

- At least 30 credit hours of approved Engineering courses must be taken at Georgia Southern.
- The listed courses are recommended in Area D.
- Proficiency examinations will not be accepted in the substitution for any upper-division or laboratory-based courses.

Honors In Mechanical Engineering 1

To graduate with Honors in Mechanical Engineering a student should:

- Be admitted to the University Honors Program 2
- Complete at least 6 credit hours of honors credit in 2000+ ENGR or MENG courses beyond the honors core requirements.
- Complete Mechanical Engineering Research (MENG 4811) and Research Project in Mechanical Engineering (MENG 4822) (taking both Mechanical Engineering Research (MENG 4811) and Research Project in Mechanical Engineering (MENG 4822) substitutes for one Mechanical Engineering Technical Elective)
• Successfully complete and present an Honors Thesis or Capstone Project
• Be in good standing in the University Honors Program at the time of graduation.
