Department of Physics and Astronomy

The mission of the Department of Physics at Georgia Southern University is four-fold. First, to provide its majors with a strong, basic undergraduate physics/astronomy education that will serve them whether they pursue an advanced degree in physics, a professional career in medicine or dentistry, a career in industry or in science education. Second, to provide excellent instruction in introductory physics and astronomy to non-majors. Third, to conduct original research in physics and astronomy that is recognized at regional, national, and international levels. Fourth, to foster an interest in science in the community and the region.

Programs

Majors

- Physics and Astronomy B.A. ([link](http://catalog.georgiasouthern.edu/undergraduate/science-mathematics/physics-astronomy/physics-astronomy-ba))
- Physics B.S. ([link](http://catalog.georgiasouthern.edu/undergraduate/science-mathematics/physics-astronomy/physics-bs))

Minors

- Physics Minor ([link](http://catalog.georgiasouthern.edu/undergraduate/science-mathematics/physics-astronomy/physics-minor))
